“ To be honest hearing about this hurt me on a level that I didn't even know existed. We may have grown apart over the years and a lot of things have changed since we were kids, but I have always had a special place for you and your siblings in my heart. You had so much more time left on this earth to leave so soon. You barely had a chance to live life. I don't even know what has happened to you for you to no longer be here, but I do know that you never got the chance that you deserved. Such a very beautiful soul, strong, funny, courageous, smart, outgoing, gorgeous young woman. I may have not been close to you in our adult years, but I'm very grateful that I've been able to share some moments with your children at Grandma Sue's house. Your light will always shine through them! I may not have been your favorite person Kendra Denae but I've always worried about you and one of the best for you. I hated hearing that you were not OK for such a long time. It brought me to tears. You always had so much potential to be an amazing successful person. You had so much life left in you. You didn't deserve this baby girl. I would love to be at your celebration of life, but I know that I will have to hold you in my heart and remember you from a distance. I've always loved you like family. You just never knew it. 😭
